~ PHYSICAL THERAPIST ASSISTANT ~

QUALIFICATIONS PROFILE

Service-driven, compassionate, and multifaceted professional with hands-on experience in contributing to the delivery of high-quality rehabilitative care, facilitating patient recovery and independence, and supporting the overall effectiveness of physical therapy interventions. Known for proven ability to provide effective patient support, including therapeutic exercises, manual therapy, and patient education, while ensuring patient safety and comfort. Equipped with fundamental knowledge of physical therapy principles, techniques, and modalities used in the rehabilitation of musculoskeletal, neurological, and cardiopulmonary conditions. Skilled at working with multidisciplinary teams, physical therapists, and support staff to achieve optimal patient outcomes. Articulate communicator, bilingual in English and Russian.

CAREER OVERVIEW

- Provided care to elderly patients with various medical conditions, including stroke or cerebrovascular accident (CVA), Parkinson's and Alzheimer's disease, dementia, chronic obstructive pulmonary disease (COPD), end-stage kidney failure requiring hemodialysis (AKF on HD), heart conditions, generalized weakness due to aging, and orthopedic issues, such as osteoarthritis.
- Effectively assisted patients to ensure fast recovery from hip, knee, or foot surgery.
- Administered therapeutic interventions such as bed mobility, transfers, and gait training, as well as balance and standing endurance activities as specified in patients' care plans.
- Rendered effectual support to residents in utilizing essential equipment and devices, while maintaining accurate and thorough documentation to track patients' progress in treatment.
- Instructed patients on proper exercise techniques and observed adherence to safety protocols and post-surgery precautions.
- Participated in educating both patients and their families, while keeping efficient communication with a multidisciplinary team.
